

To,

The Admissions Teams,

It is with immense pleasure that I (Professor name) recommend my student Mr./Miss (name) for the MS In Mechanical Engineering at your renowned university. (Name) has been my student for the (period of time) and in that time I found them to be an outstanding student. I taught them (name of subject) and found their performance to be exceptional. They adopt a can-do spirit towards learning, and their academic record proves this.

As their professor, I can assure you that [Student Name] will be great for [university name]. I truly believe their skills will come in handy for this masters program. They are driven, determined, and strong-willed. [Student Name] is good at grasping new skills and concepts. Their knowledge of various mechanical engineering concepts is impressive. They are also an active member of the Student Committee of the college, serving as the [position] faithfully. Their commitment to their interest in learning is noteworthy.

[Student Name] has tutored underprivileged children in [applicable subjects] for free for the last [period]. They have successfully conducted a Book collection drive for underprivileged students for the last [period]. I believe this program would greatly support them, and help them grow their career. I have seen them take on various challenges head-on. Their perseverance and determination are applaudable.

I vouch for (name) in this letter recommending them to you. Accepting them into your institute will be the right choice as the institution would benefit from the value that they will add. I know that they will become an invaluable asset to your institution and the community.

Sincerely,

Name
