

To Whom It May Concern

I am Anna Lee, a Final-year student at Havard University and one of the recipients of the university's financial aid package since my freshman year. I am very thankful for being chosen as one of the students to be granted the university financial aid package.

I sincerely desire to attend Oxford University this school year, but apparently, it will be difficult for me to do so without additional financial aid. In this regard, I am kindly requesting to have my financial aid package be submitted for your review and consideration. I would greatly appreciate your help regarding this matter.

I have enclosed all the necessary documents you may require for your review of my appeal including the required financial aid appeal form from your office and other documents.

Thank you again for your generosity and consideration.

Regards,

Anna Lee
Final-Year Student, Havard University
